

Product Name :
Bit Clock Regeneration Modules

Product Code :
LIM-CAT-L0017-00013

Description :

Bit Clock Regeneration Modules

Technical Specification :

Bit Clock Regeneration Modules

Four independent functional blocks are provided, which may be used independently or in combination with other modules, to recover the bit clock of any generated Line-Code.

Schemes which may be constructed and demonstrated:

Bandpass filter rejection techniques

Bandpass filter bit-sync derivation, and

Phase Lock Loop bit-sync derivation.

Bit Clock Regeneration Modules, Bit Clock Regeneration Modules Bulk Suppliers, Bit Clock Regeneration Modules Tools, Bit Clock Regeneration Modules Bit Clock Regeneration Modules, Bit Clock Regeneration Modules Manufacturers, Bit Clock Regeneration Modules Suppliers from India, China, Kenya.
