

**Product Name :**  
PC-Modules Controller

**Product Code :**  
LIM-CAT-L0017-00032

**Description :**

PC-Modules Controller

**Technical Specification :**

PC-Modules Controller  
Frequency ranges from 1uHz to 25MHz, and offers multiple standard waveforms  
Full-Functions equipped Dual-channel Signal Output Capability  
Correlated Functions of Dual-channel Outputs  
High-flexibility of Arbitrary Waveforms Editing  
1%~99% Adjustable Duty Cycle of Square Wave  
Friendly Operating Interfaces and Instant Parameter Display  
66 Built-in Arbitrary Waveforms  
Support Multi-change Signal Application  
Impedance Switch Function  
Provide USB Host/Device Interface

**Technical Data:**

With Dual Channel Arbitrary Waveform Generator

PC-Modules Controller, PC-Modules Controller Bulk Suppliers, PC-Modules Controller Tools, PC-Modules Controller PC-Modules Controllers, PC-Modules Controller Manufacturers, PC-Modules Controller Suppliers from India, China, Kenya.
