## Product Name : PC-Enabled System Trainer With Fixed Module

## Product Code : LIM-CAT-L0017-0004

## **Description**:

PC-Enabled System Trainer With Fixed Modules

## **Technical Specification :**

PC-Enabled system trainer with fixed modules comprised of the following: Master Oscillator – synchronized quadrature carrier, sampling and message signals Buffer Amplifiers – two independent amplifiers with gain controls Frequency and Event counter Variable and fixed DC Voltage Output Oscilloscope Display Outputs – AB switch on two channels for alternate signal comparison. In-built 2 channel PC-based instrument with ext trigger input, 500MS/s per channel, providing oscilloscope, spectrum and meter displays Trunks – potential for networking option. Headphone Speaker Amplifier and 3kHz LPF Built-in Power Supply

PC-Enabled System Trainer With Fixed Modules, PC-Enabled System Trainer With Fixed Modules Bulk Suppliers, PC-Enabled System Trainer With Fixed Modules Tools, PC-Enabled System Trainer With Fixed Modules PC-Enabled System Trainer With Fixed Moduless, PC-Enabled System Trainer With Fixed Modules Manufacturers, PC-Enabled System Trainer With Fixed Modules Suppliers from India, China, Kenya.
