

Product Name :
Bioethanol Storage Tank 500l

Product Code :
LIM-CAT-L0021-00012

Description :

Bioethanol Storage Tank 500l

Technical Specification :

Bioethanol Storage Tank 500l

Bioethanol storage tank useful for the stockage of the final product of distillation process. This tank meet the following general specifications:

Material: Stainless Steel.

Tank capacity: 500liters.

Strict leakage tests. Proofs of these tests to be supplied.

Strictly gasketed sealed tank - no oxygen permeation during storage.

Easy to operate CIP (Clean-In-Place) system: manufacturer to provide the standard operating procedure for first commissioning of the tank.

An incorporated SUS 304/316L faucet/tap (or ball valve) for bioethanol harvesting.
