

Product Name :
Distance Measuring Wheel

Product Code :
LIM-CAT-L0026-00004

Description :

Distance Measuring Wheel

Technical Specification :

Distance Measuring Wheel

The rodo meter commonly called is very much use full for measuring the uneven surface over long distance road / land area for various applications in order to estimate the distance between to points in meters the ergonomically designed road measurer wheel gives longer life with accurate readings upto 99.9% accuracy, the rubberised wheel surface ensures smooth rolling over earth surface, the mechanical cut gear operated, ensures accurate distance reading. Sound tubular frame design gives everlasting life.

Spoke wheel

9999,99 mtr/cm reading

Wheel circumference 100cm

Accuracy 0,05%

Distance Measuring Wheel, Distance Measuring Wheel Bulk Suppliers, Distance Measuring Wheel Tools, Distance Measuring Wheel Distance Measuring Wheels, Distance Measuring Wheel Manufacturers, Distance Measuring Wheel Suppliers from India, China, Kenya.

Laboratory instruments manufacturers India
