

Product Name :
Brooding Lamps for Chicks

Product Code :
LIM-CAT-L0042-00031

Description :

Brooding Lamps for Chicks

Technical Specification :

Brooding lamps for chicks

250 Watt infra-red, complete set with fitting, cable and socket.

Safety Features - This lamp features a heat resistant ceramic socket and double wire bulb guard for safety. It provides a warm heat for new chicks that have just hatched after egg incubation.

Easy-To-Use - This brooder heat lamp features a scratch-resistant clamp that you can attach to most surfaces with a ball joint for easy and smooth positioning, ensuring you can direct the heat exactly where you want it.

6 Foot Cord - This lamp features a 6-foot electrical cord with polarized male prongs for safety, specially designed to prevent wires from coming loose and causing shock.
