

**Product Name :**  
Shelby Thin Wall Tube Sampler

**Product Code :**  
LIM-CAT-L0044-00022

**Description :**

Shelby Thin Wall Tube Sampler

**Technical Specification :**

Shelby thin wall tube Sampler

The thin-wall tube (Shelby) sampler is commonly used to obtain relatively undisturbed samples of cohesive soils for strength and consolidation testing.

The sampler commonly used has a 76 mm (3.071 in) outside diameter and a 73 mm (2.875 in) inside diameter, resulting in an area ratio of 9 percent.
