

Product Name :
Concrete Compression Testing Machine

Product Code :
LIM-CAT-L0044-00035

Description :

Concrete Compression Testing Machine

Technical Specification :

Concrete Compression Testing Machine

Their rugged construction and extreme simplicity makes it possible for even non-technical personnel to operate them with ease and complete dependability.

In particular, the portable units, which are small in dimensions, sturdy and light in weight, make quality control testing possible in areas where commercial testing facilities are not available and where the transportation of larger and much heavier machines is difficult.

4 pillar type load frame

Specimens duly hardened and surface ground for excellent smooth finish

Suitable to operate on 440 volts, three phase

Having adjustable rate of Loading and auto cut-off mechanism which will stop the machine a little before reaching its load all the electrical fittings including motor used will be of standard make

1000 KN, 500 KN, 100 KN with three pressure gauges loading unit Pillar model with 12 concrete cube moulds.
