**Product Name:** 

High Accuracy Liquid Metering Pumps

Product Code: LIM-CAT-L0046-00013

## **Description:**

High Accuracy Liquid Metering Pumps

## **Technical Specification:**

With the best diaphragm sealing technologies, these reciprocating pumps are capable of injecting liquids to processes with a high degree of discharge accuracy at high pressure without causing leakage.

Main Features:

High discharge accuracy

A wide turn down ratio

A wide selection from tiny flow to huge flow

Allowable pressure up 120MPa

A Diaphragm Condition Monitoring System is provided

Compliant with international and national standards

Sanitary/hygienic designs are available optionally.
