

Product Name :
Jig Saw Machine

Product Code :
LIM-CAT-L0050-00010

Description :

Jig Saw Machine

Technical Specification :

Adjustable bottom plate can tilt up to 45° for bevel cutting need.

4 position orbital setting allows you adapt the cutting motion to fit different type of cuts and materials.

The higher gear is suitable for softer materials and faster cutting; lower gear for harder materials and slower cutting.

Multifunction & Tool-Free Blade Change: Equipped with 3 blades separately for cutting different materials, including: wood, PVC, metal, gypsum board, etc.

The max cutting capacity is: Wood:65mm; Steel: 8mm. Tool-free blade clamp allows for easy and quick blade changing.

Practical & Safe Design: Scale ruler is designed for precise cutting. Soft rubber non-slip handle for comfortable grip.

Lock-on button avoids accidental startup.

Power: 5000-8000W.

10-15mm Impact Screwdriver Power Hand Tools.

Rated Speed: 0-2800rpm
