

Product Name :
Bearing Puller

Product Code :
LIM-CAT-L0052-00004

Description :

Bearing Puller

Technical Specification :

This 3-jaw removal tool works with your wrench, ratchet, or spanner as a gear puller, sprocket puller, bearing puller, pulley puller, flywheel puller and more.
Three jaws come with fine chrome plating to provide a reliable and effective rust and corrosion protection. Drive screw is covered by black phosphating, which provides maximum strength and longevity to the gear puller, puller jaws allow for easy gripping and access to tight spaces.
Each of the three 3-jaw gear and bearing pullers can be reversed to pull parts from either the inside or outside. Universal 4 position reversible jaws offer inside or outside grip with short, standard reach.
Drop Forged Carbon Steel Chrome Plated.
