

Product Name :
Fruit Juice Press

Product Code :
LIM-CAT-L0069-00001

Description :

Fruit Juice Press

Technical Specification :

Fruit Juice Press

Fully automatic operation, with an enclosed work area, reduces oxidation.

In the bottom of the machine, two rotating washing heads guarantee cleaning optimum during the process.

The distance between the pressing cylinder and the juice collection tray is reduced to avoid the formation of foam. Very easy to clean.

With 4 vibration-free feet. Requires minimal maintenance.

The pressure washer and air compressor are essential for operation.

Specifications:

Performance: 300 kg/h

Electricity demand: 0.55 kW, 400 V, 6 A, three-phase

Material: AISI 304 stainless steel

Dimensions: 1250x1370x1520mm

Weight: 200 kg

IP65 certified electronics

Food industry, solid polyester belt

Belt: 2mm thick, density: 6x16 filament/cm², ½ rate (suitable for large juices without fibers)

High yield: 75% - depends on fruit freshness and quality

High pressure washers: 500 L/h

Compressed air: 50 L/h 6 bar
Built-in inverter: belt speed continuously adjustable.
