

Product Name :
Electric Kettle

Product Code :
LIM-CAT-L0071-00001

Description :

Electric Kettle

Technical Specification :

Electric kettle 1.7-1.8 l, 220V

An Easy, Attractive Way to Heat Water in No Time

Safe to handle even with a full pot of boiling water! Locking lid reduces the danger of accidental spills and the single rubber foot pad built into the base allows the base and kettle to 'pivot' in the event of unexpected tipping. The large opening in the top allows easy access to the smooth, seamless Stainless Steel interior for easy cleaning of mineral deposits.

Auto Shut-Off

Automatic shut-off with boil dry protection, Perfect for homes with young children; The kettle is embedded with auto shut-off feature inside that ensures that the kettle is turned off if the water has reached an appropriate temperature.

Illuminated Power Indicator

The water boiler equipped with power indicator light that lights up as it begins to boil water and automatic shut-off after boiling, perfect for safety.

Single - Touch Lid Locking

Enjoy boiling hot water anytime of the day using your electric kettle. As it is Easy and convenient to use without any hassle with its single touch lid lock that will not only take care of your safety but will give you an easy boiling experience.

360 Degree Swivel Base

We make kettles while keeping you in mind. With a lid that automatically opens just when you need it to, a 360°

rotating base for easy one-hand grabbing, we put a lot of thought into the kettle so you can use the kettle without any inconvenience.
