

Product Name :
Measuring Instruments

Product Code :
LIM-CAT-L0052-00009

Description :

Measuring Instruments

Technical Specification :

Resistance ranges: 30 ohm-30 Mohm

Special functions: °C for temperature measurements using
PT100/1000 thermocouple (optional accessory)

Continuity and diode testing

Automatic range selection and battery shut-off, min./max. And data hold function

Safety fuse for current measurement range up to 300 mA

Protection against high currents in the mA range for nominal voltage of 1000 V

Display with bar chart and backlighting

With Adapter BNC/4mm safety sockets, insulated, Test lamp.

Digital multimeter (Universal precision lab multimeter and temperature meter with IR interface for , universal measurement and testing in educational settings, power plants, process control installations).

Digital dual trace storage oscilloscope Color display.
