

Product Name :
Battery Tester With and Without Stress

Product Code :
LIM-CAT-L0072-00042

Description :

Battery Tester With and Without Stress

Technical Specification :

Battery tester with/without stress
For 12 volt batteries (lead acid, gel, wet cell, MF, VRLA, calcium, AGM and deep cycle batteries)
Automatic control of the complete test procedure by menu navigation
Checks battery condition, state of charge, internal resistance, cold start current value
With check function for starter battery, starter motor and charging circuit measurement
Illuminated 5-digit LCD display
The measurement results are also indicated by colored symbols: OK, Charging and Bad
Avoidance of battery overload due to too long measuring time
0.45 m long cable enables flexible working
Resistant rubber sheath
Display LCD Display
Working range CCA 100-1.400 CCA
Working range DIN 100-800 CCA
Working range EN 100-1,400 CCA
Working range IEC 100-800 CCA
Working range SAE 100-1.400 CCA
Working temperature -18°C to 55°C"
