Product Name :
Profile Depth Meter

Product Code :
LIM-CAT-L0072-00048

Description :

Profile Depth Meter

Technical Specification :

Profile depth meter

A simple way to check your tire tread depth is by using a tread depth gauge.

All you have to do is stick the probe into a groove in the tread and press the shoulders of the probe flat against the tread block and read the result.

Made of Brass.

Surface finely ground.

With dove tail guiding and Vernier reading.
