Product Name:

Automotive Lab Practice-Relevant Standard Vehicle Diesel Engine Common Rail Used

Product Code:

Description:

Automotive Lab Practice-Relevant Standard Vehicle Diesel Engine Common Rail Used

Technical Specification:

Practice-relevant standard vehicle diesel engine, common rail (used)

CRDI (Common Rail Direct Injection) Simulator Equipment which has fuel, cooling, intake, exhaust panel so that allows theoretical training and experiments.

Easy to check and diagnose all faults that can happen in an actual vehicle system so that it's able to do effective education concerning maintenance system.

Diesel engine Common Rail

OBD Diagnostic

Vehicle is complete and engine system is full functional (also possible: accident damage or gear box damage) Focus is on the running engine!

Car will be prepared to take signals from sensors actuators.
