

Product Name :
High Voltage Kit Marking, Barriers and Interlocking Systems

Product Code :
LIM-CAT-L0072-00070

Description :

High Voltage Kit Marking, Barriers and Interlocking Systems

Technical Specification :

High Voltage Kit Marking, Barriers and Interlocking Systems

Assortment of signs, barrier posts with chain and padlock to prevent electrical accidents during high-voltage use. In case of an electrical accident a quick safety intervention is essential where seconds lost or gained can decide the life or death of an electrocution victim.

Life Saving Kits are available in compact carry case and wall mounted variations and are designed to make all necessary electrical safety equipment on-hand for rapid intervention and rescue up to 36kV.

The set consists of:

Information sign "Attention high voltage!"

2 x self-adhesive foil

Maintenance tag "Warning of dangerous, electrical voltage".

Maintenance tag "Switching prohibited"

6 x chain stand barrier chain, length 25 m

Information sign for HV-insert for chain stand

Information sign for HV-insert with suction cups

Padlock with steel shackle"

Laboratory instruments manufacturers India
