

Product Name :
Copper Tube Fitting Brushes

Product Code :
LIM-CAT-L0007-00007

Description :

Copper Tube Fitting Brushes

Technical Specification :

Double-head can meet your different needs, each with 2 apertures and brush heads at both ends, the 2 apertures in the middle can be applied to clean the outer diameter of the pipe, the brush heads at both ends can be applied to derust the inner diameter and clean each other between the brushes.

The brush heads on both sides are stainless steel bristles with strength, durability and long service life, which can resist wear, tear, impact, corrosion and flattening of hard bristles.

Unfinished metal parts can be cleaned without damaging the surface or fine features.

For internal and external cleaning or deburring of steel / copper / aluminium and plastic pipes, cleaning, polishing, paint removal, rust removal, bring the pipe to shine again.

Comfortable handle with ergonomic grip. Compact size allowed to be stored with ease, lightweight so that easy to carry.

Set of 4 brushes for cleaning tubes and fittings.

For tubes O.D. sizes $\frac{1}{4}$, $\frac{3}{8}$, $\frac{1}{2}$, $\frac{5}{8}$.
